

Steropore

Hypoallergenic adhesive

The most flexible adhesive wound dressing on the market.

These large sterile dressings have the benefit of a **hypoallergenic adhesive**, that has excellent adhesion, making it perfect for dressing parts of the body prone to continuous movement (e.g. joints).

Used throughout NHS hospitals following all types of surgical procedures, they are ideal because they're so flexible

Their skin-sensitive adhesive makes them the number one choice for a child's sensitive skin, and are highly recommended for use in schools, nurseries and by childminders

Description	Size	Pack	Ref
