

Steroplast EAB

Elastic Adhesive Bandage

Physiotherapists treat and prevent a wide range of sporting injuries with the support of Steroplast's premium quality elastic adhesive bandage (EAB).

- Wound onto a smooth bevelled core to prevent finger cuts during use
- Easy unwind for controlled application and even application of pressure
- Adhesive is porous to allow skin to breathe and sweat to evaporate, reducing the risk of skin maceration
- No wastage, full unwind to the core
- Central line to aid positioning
- Soft edges for additional patient comfort

Description	Pack	Reference
EAB - 2.5cm x 4.5m	60	2092W
EAB - 5cm x 4.5m	30	2093W
EAB - 7.5cm x 4.5m	30	2094W
EAB - 10cm x 4.5m	30	2095W

Steroban-U protection for the skin

A thin polyurethane foam which forms a protective layer over the surface of the skin preventing direct contact with the adhesive.

Ideal for sportsmen and women who use adhesive tapes and strappings on a regular basis.

Provides additional padding for sensitive or swollen areas.

Equalises pressure under strapping and casts. Helps prevent skin maceration.

Description	Pack	Reference
Steroban-U - 7cm x 27m	48	3075B
Steroban-U - 7cm x 27m	6	3075B/6
