

PhysioWrap® Sport

The fast, convenient and effective treatment for soft tissue injuries

PhysioWrap SPORT is an effective all-in-one system for securing ice packs, gel packs and other forms of cold and warm therapy to soft-tissue injuries.

This includes damage to muscles, ligaments, tendons and capsular or cartilaginous structures.

Helps treat sports injuries - fast!

Using the lightweight re-usable dispenser, the films built-in elasticity provides fast application to the injured area. It holds the treatment pack firmly in place and needs no preparation or even unwrapping.

The translucent film allows clear observation of the area around the injury for bruising or other symptoms.

Contributing to effective R.I.C.E treatment

PhysioWrap SPORT's unique characteristics allow it to secure ice or a gel-based cold pack, to the injury whilst also applying compression to the affected area.

This helps to significantly to speed up the recovery.

Simple to use

With PhysioWrap SPORT there is no need for pins or other fasteners. Scissors are not required and the high-performance film simply sticks to itself and not the patient's skin.

It is also quick and painless to remove.

Value for money

This marvellous film is supplied on a lightweight, re-usable, rigid-plastic dispenser and is available in a choice of convenient pack sizes. It's portable and easy to store. One 100 metre roll gives around 50 applications representing exceptional value for money.
