

# Workplace First Aid Kit

Compliant to British Standard BS8599-1

Security Seal Ref 8599-T/BX

Ultra  
Strong  
Bracket

**The Premier kit** is made from translucent durable plastic

Each product is packed in specific compartments so that the product you need is instantly visible.

To maintain this design advantage, once the contents are used, the product placement diagram in the lid shows where to put your replacement items, making the kit ready for the next emergency.

**We've included a burn dressing** which ensures you can treat a skin burn, reduce the pain without the need to keep the burn under running water.

# In an emergency our NEW British Standard - Workplace First Aid Kits make finding products quick and easy.

The very latest BS8599-1 first aid kits are designed to be user friendly in an emergency.

**As injuries at work can be life threatening you should be able to reach a kit within 60 seconds.**

**If your staff are split over more than one floor, you must have at least one kit per floor. First aid kits should be positioned where people see them every day,** so that in the event of an emergency, people will remember where to find them.

**First aid kits save lives and are required by law!**

In the event of sudden injury, failure to provide sufficient first aid could have extremely serious consequences. Employers and managers should therefore ensure that an employee who is injured or taken ill at work receives immediate attention.

## Choosing the right first aid kit is now as easy as 1, 2, 3.

See the selection chart below for guidance.

Decide if your work environment is:

- 1 **LOW HAZARD** or **HIGH HAZARD**.
- 2 **How many employees** there are in your workplace.
- 3 **Which of the three sizes** of kit you will need, e.g. small, medium or large. Place an order, put in a prominent position, done. It's that simple!

You can rest assured that everything we supply is of the highest quality, is tried and tested, comes complete with robust guarantees, gets delivered on time, and has been designed to meet the toughest UK and EU standards.

*"First aid kit compliance made nice and easy by Steroplast Healthcare!"*

**BS8599-1 Workplace First Aid Kit in an ergonomic Premier Box**
