

Steroclenz Rapid

Steroclenz RAPID 50

The high level, fast acting sporicidal disinfection that kills up to 99.9999% of germs, in 60 seconds!

Steroclenz Rapid 50 is a powerful, water-based foam for the rapid cleaning and disinfection of hard surfaces.

The Steroclenz foam has been independently tested in 'real world' conditions and contact times.

It has been proven to provide **4 hour** residual protection against bacteria and spores, it offers **99.9999%** kill rates against germs in **60 seconds**.

Thanks to the focused spray head, users can clearly target the surface area where the foam should be applied. Creating a more even and consistent surface coverage.

This very important, as an inadequate application of biocide could possibly lead to micro-organism cross-resistance development.

Steroclenz Rapid has been **designed to be used on all hard surfaces**, excluding medical devices. It can be used to clean and disinfect:

- Blood spills
- Isolation rooms
- Sluice rooms
- Workstations
- and much more....
- Bodily fluids
- Toilets
- Commodes
- Walls/Floors

The Rapid foam can be used on all hard surfaces as it is compatible with steel, PVC, rubber, cotton, polyester and wood.

The foam is ready to use from the bottle, simply spray the surface and wipe. Spray 2 or 3 pumps of foam onto the surface. Always make sure to wipe from the clean area to the dirty area, working towards you in straight 'S' shaped lines, then simply let the area air dry.

The rapid foaming spray action is designed to ensure that the spray doesn't spread, ensuring an even coverage over the spill or area that needs cleaning.

The foam itself is white, to allow the user to see clearly where the biocide has been applied and to assist with uniform application and concentration of the biocide upon the surface.

Steroclenz Rapid 50, the 50ml pump vaporiser bottle. It has all the power of Steroclenz Rapid in a pocket sized spray.

Steroclenz Rapid 500, a heavier duty 500ml trigger spray bottle. For a cleaning team to have with their cleaning equipment.
