

Veterinary

Essentials

We've been a major supplier of EAB to **Animalcare** for over 20 years...

As Animalcare are no longer supplying their Treatplast ventilated Elastic Adhesive Bandage (EAB) to the equine community, **we wanted to take this opportunity to offer you Treatplast under the Steroplast brand...**

Best-selling “reverse-wound” Elastic Adhesive Bandage (EAB)

One of Animalcare's best-selling EABs was the “reverse wound” EAB, that is supplied with the adhesive on the outside of the bandage. A feature that is preferred by many of the vets we have spoken to that are treating horses.

“The reverse wound allows for an easier roll-on application with little drag, making it quicker and therefore safer to apply”.

No quibble guarantee!

We know there's a lot of choice in the market, but not when it comes to high-end quality, so here's our proposal...

100% satisfaction or your money back. It's a no quibble guarantee.

If you'd like to receive a couple of **FREE samples** so that you can see for yourself that this is the identical product that Animalcare were supplying to equine, please contact us using the details below;

Please call us on **+44 (0)161 902 3030** and ask for 'EAB for vets' or email **sales@steroplast.co.uk** - putting 'EAB for vets' in the subject line.

Offer ends 31/10/22. Terms and conditions apply.

Dressings & wound care

The Steroplast ranges of adhesive dressings, tapes & bandages have been in use by the NHS for more than two decades, which we think you'll agree adds further credibility to their quality and reliability.

✓ High-quality

High-quality solutions for treating cuts, wounds, abrasions and lacerations.

✓ Ideal for emergencies

Ready to use items that veterinary professionals can use to manage major wounds in emergencies.

✓ Various sizes

Our wound dressings come in various sizes to reduce waste and ensure precision when treating injuries.

Steroswab - Non-sterile

Non-sterile Steroswab is used as an additional absorbent layer for bodily fluids.

SIZE	REF
5 x 5cm	1900
7.5 x 7.5cm	1901
10 x 10cm	1902

Steroswab - Sterile

The absorbent & sterile swab can be used when managing minor wounds - for cleaning, drying & dressing the wound.

SIZE	REF
5 x 5cm	1903
7.5 x 7.5cm	1904
10 x 10cm	1905

Steropad wound dressings

Non-adhesive, double-sided highly absorbent wound dressings, used following operations and surgical procedures.

SIZE	REF
5 x 5cm Pack of 100	3006

More sizes available online

Steropore wound dressings

These large sterile dressings are made with a hypo-allergenic, excellent adhesion and a highly absorbent wound pad.

SIZE	REF

More sizes available online

Wound care procedure pack

This specifically created set of disposable medical products is ideal for treating wounds and aseptic procedures in a veterinary practice.

SIZE	REF
Single pack	1893

Sterowash eyecare kits

Our eyecare kits are perfect for flushing out any irritants or cleaning eyes or wounds.

SIZE	REF
Eye & wound	9115
Eyecare - Medium	9114
Eyecare - Large	9116

Steroban-Supersoft

Steroban-Supersoft is a soft synthetic orthopaedic padding used to provide cushioning and extra comfort under plaster casts and as a base layer when used with pressure dressings.

✓ Medical Grade

Manufactured from a viscose and polyester blend, it provides a soft layer between the wound and outer dressing which helps with the healing process. The construction of the padding allows excess moisture to pass through it and evaporate, which reduces skin irritation.

PRODUCT DESCRIPTION	QTY	REF
Steroban-Supersoft 10cm x 2.7mts	12	VET003
Steroban-Supersoft 15cm x 2.7mts	12	VET004

Web: www.steroplast.co.uk

✓ Tears easily

Perfect for shaping around awkward bodily contours.

✓ Composition

Manufactured from a super soft viscose & polyester blend.

✓ Conformable

Moulds easily around any part of the body & prevents rubbing.

✓ Hypo-allergenic

Available in two sizes for varying coverage.

✓ Breathable

The lightweight padding provides improved comfort.

✓ Two sizes

Suitable for sensitive skin for reduced skin reactions and irritation.

EAB Elastic Adhesive Bandage

✓ Premium quality elastic adhesive bandage

Steroplast's Elastic Adhesive Bandage has superb adhesive qualities, which we know from the feedback we've had from various vets is second to none.

Steroplast's EAB is available as either "**normal**" wound with adhesive to the inside, or "**reverse wound**" with adhesive to the outside.

✓ Central guideline

The red centre guideline on the bandage helps to keep a consistent overlap during application.

✓ Porous adhesive

The adhesive is porous to allow the skin to breathe and for sweat to evaporate.

✓ Easy unwind

Wound onto a smooth bevelled core for an easy unwind.

✓ Individually wrapped

All EAB is supplied individually wrapped to ensure it's clean and dry before use. Supplied in packs of 30. 2.5cm rolls in a pack of 60:

PRODUCT DESCRIPTION	QTY	REF
EAB - 2.5cm x 4.5cm	60	2092W
EAB - 5cm x 4.5cm	30	2093W
EAB - 7.5cm x 4.5cm	30	2094W
EAB - 10cm x 4.5cm	30	2095W

Reverse wound EAB

✓ The first choice for vets

"Reverse" wound EAB has **adhesive on the outside** - some vets have told us that they find reverse wound makes application easier, particularly on smaller animals.

The adhesive is applied in stripes for effective ventilation and is **latex free**.

Find this product online or contact us to order:

Call: **0161 902 3030**

Email: **sales@steroplast.co.uk**

Web: **www.steroplast.co.uk**

✓ Porous adhesive

Distributed evenly in stripes across the outer layer of the roll, which aids easy unwinding for a controlled, even application of pressure over painful joints.

PRODUCT DESCRIPTION	QTY	REF
Reverse wound EAB - 5cm x 4.5cm	30	2040R
Reverse wound EAB - 7.5cm x 4.5cm	30	2041R
Reverse wound EAB - 10cm x 4.5cm	30	2042R

Stero-Vet NEW Veterinary First Aid Kit

Look after your vets when they're away from the practice. If you are a mobile vet or often work away from your practice, you should be equipped with a personal first aid kit.

✓ British Standard

The contents of this kit are of the highest quality & are compliant with British Standard BS8599-1.

✓ Contains 500ml sterile water

To ensure an injury can be adequately & hygienically cleaned before a dressing is applied, having sterile water to hand avoids any potential for infection.

✓ Unique burn treatment

The burn dressing contained within the kit has a unique feature. It will cool the burn without the need for running water, relieving the pain, and allowing the vet to either keep on working or to drive back to the practice. The burn dressing can be held in place with the bandage also included in the kit.

✓ Designed with vets in mind

Whenever a vet is away from their practice, it makes sense to be prepared for accidents that can happen in places where there may be any number of hazards, e.g. in farmyards, stables, kennels etc.
