

3

REASONS WHY YOUR BUSINESS NEEDS A FIRST AID KIT

1

It's the Law!

Under Health & Safety Law, businesses are required to provide suitable high quality first aid supplies easily accessible and ready to use within 60 seconds

147 fatal injuries to workers in 2019

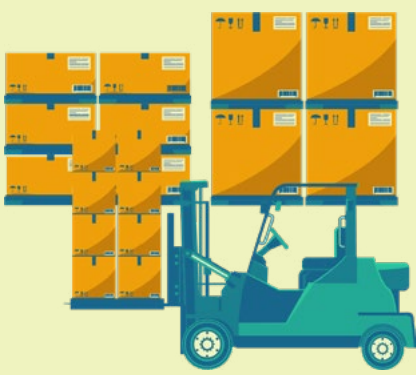

Suitable, Visible

Steroplast have a range of kits that are made to British Standards. It is required that your first aid kits are mounted on a wall where they are highly visible, so that if an accident does occur, staff know where to find it

2

Some Employees are at Greater Risk

Some people's jobs can be more dangerous than others, so it is important that they have a first aid kit that is suitable for their role

Warehouse

Drivers

Lone Workers

Workplace First Aid Kit

Stocked with essential items to ensure that injured employees get the right help before things get too serious

First Aid Vehicle Kit

This kit can be crucial in the event of road crashes, as well as other serious mishaps such as cuts, scrapes and burns

Off-Site Lone Worker Kit

Kit contents carefully selected to enable the user to deal with a variety of accidents whilst working alone or offsite

3

A Matter of Life & Death

The longer you wait for treatment, the more severe an injury can become. First aid kits can provide immediate treatment, which reduces the risk of an injury becoming more serious, and in the case of life-threatening accidents, increases the chance of survival.

When bleeding from a **major artery**, death can occur between **20 seconds** and 2 minutes

When bleeding from a **small artery** with no first aid, death can occur between **2-3 minutes**

If you want to find out more about our range of first aid kits, visit our website or alternatively get in touch for a **free consultation**, where one of our experts will assess your business' first aid requirements.
